ELECTROSURGERY

ESU DEVICES

BOVIE DERM 102 HIGH FREQUENCY DESICCATOR

Most procedures performed by a High Frequency Desiccator utilize ten watts of power or less. The DERM 102 is an economical, 10 watt high frequency desiccator, thoughtfully designed to give practitioners the ability to perform in-office, minor skin procedures such as the removal of skin tags, benign lesions and premalignant lesions. The Bovie Derm 102 unit allows practitioners to provide better patient care in the office, at a sensible price, saving the patient time and money, while increasing their practice revenue.

The Bovie DERM 102 High Frequency Desiccator offers ten watts of monopolar power, adjustable in 1/10th watt increments to desiccate and fulgurate tissue. The Derm 102 unit power can be adjusted using the 3-Button Power Control Handpiece or by using the rotary dial on the unit. The unit features a large, bright, LED display allowing excellent visibility across the procedure room.

For the practitioner who wants to also use bi-polar electrosurgery along with high frequency desiccation, the Bovie DERM 102 High Frequency Desiccator provides 10 watts of bipolar power, adjustable in 1/10th watt increments. To utilize this feature the bipolar cable, a bipolar forcep and footswitch activation (all sold separately) are required.

The Bovie DERM 102 is packaged ready to use with a total of 18 disposable dermal tips

Features:

Large illuminated display
Audible tones
Monopolar & bipolar outputs
Higher resolution in bipolar mode
Rotary power dial
Isolated circuitry

Specification:

Output Power
To 10 watts (0-10 watts in 1/10th watt increments on both monopolar & bipolar settings)

Dimensions

Height: 20.8cm
Width: 18.4cm
Depth: 6.9cm
Weight: 1.4kg

Main Current
320mA Max

Line Voltage
100-240VAC

Line Frequency
50-60Hz

Warranty
Industry leading 4 year warranty

Kit Inclusions
Derm 102 high frequency desiccator x 1
A902 power control pencil x 1
A910 disposable sheath x 2
A804 non-sterile single use sharp dermal tips x 5
A805 sterile single use sharp dermal tips x 2
A806 non-sterile single use blunt dermal tips x 5
A807 sterile single use blunt dermal tips x 2
A806DE non-sterile single use DERM-Elite premium blunt dermal tips x 2
A807DE sterile single use DERM-Elite premium blunt dermal tips x 2
A837 wall mount kit x 1
AC power cord x 1

BOVIE DERM 942 HIGH FREQUENCY DESICCATOR

The Bovie DERM 942 High Frequency Desiccator and its patent pending handpiece are designed and engineered to be reliable and durable. Power is adjustable in 1/10th watt increments in the first 10 watts, in monopolar and bipolar. The Bovie DERM 942 is a ground reference unit, which means no grounding pad is required.

The Bovie Derm 942 High Frequency Desiccator and its patent pending handpiece are designed and engineered to be reliable and durable. Safety features such as digital error detection continuously monitors every aspect of the units output and at any sign of problem instantly disables output and displays an error code. The Bovie Derm 942 unit’s life is prolonged by incorporating the latest in chip technology and reducing the number of internal parts, thereby generating less internal

heat. Post-procedure and long-term clean-up are simplified by its non-absorbing, non-staining, high impact plastic case. Power is adjustable in 1/10th watt increments in the first 10 watts, in monopolar and bipolar. The Bovie DERM 942 is a ground reference unit, which means no grounding pad is required reducing overall device ownership cost.

Features:

Large illuminated display
Self test circuits
Audible tones
Monopolar & bipolar outputs
Higher resolution in bipolar mode
Rotary power dial
Isolated circuitry
Digital error detection

Specification:

Output Power
To 40 watts (0-10 watts in 1/10th watt increments on both monopolar & bipolar settings)

Dimensions
Height: 18.8cm
Width: 22.8cm
Depth: 10.5cm
Weight: 2.26kg

Output Frequency
328-492kHz

Line Voltage
100-240VAC

Line Frequency
50-60Hz

Warranty
Industry leading 4 year warranty

Kit Inclusions
A942 electrosurgical generator x 1
A902 power control pencil x 1
A910 disposable sheath x 2
A804 non-sterile single use sharp dermal tips x 5
A805 sterile single use sharp dermal tips x 2

BOVIE BANTAM PRO HIGH FREQUENCY DESICCATOR

The Bovie Bantam PRO is a high frequency desiccator that also has cutting ability. The unit provides 50 watts of cutting power and coagulation modes, plenty of power for most procedures performed in the doctor’s office. Power is adjustable in 1/10th watt increments from 0 to 10 watts, for the most accurate output available.

The Bovie Bantam PRO (A952) is a High Frequency Desiccator with cutting ability. You might call it a split personality. One half of the unit is a high frequency desiccator, an upgrade to our very popular Aaron 940. The other half is a Bovie Generator, giving you 50 watts of cutting power and coagulation capabilities. The Bovie Bantam PRO gives you plenty of power for most cutting procedures performed in the doctor’s office. The unit comes with a suite of accessories and is ready to use straight from the box.

Features:

Large illuminated display
Self test circuits
Audible tones
Monopolar & bipolar outputs
Higher resolution in bipolar mode
Rotary power dial
Isolated circuitry
Digital error detection

Specification:

Output Power
Cut: 50 watts (0-10 watts in 1/10th watt increments)
Blend: 50 watts
Coagulation: 50 watts
Fulguration: 40 watts
Bipolar & Micro Bipolar: 40 watts

Dimensions
Height: 18.8cm
Width: 22.8cm
Depth: 10.5cm
Weight: 2.26kg

Output Frequency
304-451kHz

Line Voltage
100-240VAC

Line Frequency
50-60Hz

Warranty

Industry leading 4 year warranty

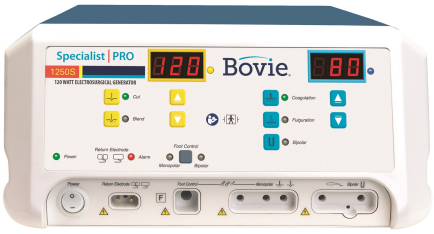

Kit Inclusions

BOVIE SPECIALIST PRO HIGH FREQUENCY ELECTROSURGICAL GENERATOR

The Bovie Specialist PRO is the affordable solution for the busy physician office and specialty facility. The multi-purpose unit features a modern push button design and is capable of most monopolar and bipolar surgical procedures. The Specialist PRO offers 5 energy outputs with up to 120 watts of power; modalities include Cut, Blend, Coagulation, Fulguration and Standard Bipolar. The unit is designed with dependable safety features like BovieNEM™ (Neutral Electrode Monitoring) pad sensing technology, BovieDED™ (Digital Error Detection), audible alert tones and self-test circuits. The Bovie Specialist | PRO satisfies the physician's electrosurgical needs with safety, reliability and convenience.

The Bovie Specialist PRO is the affordable solution for the busy physician office or specialty facility. Capable of most monopolar and bipolar surgical procedures and packed with dependable safety features such as digital error detection & isolated circuitry the Bovie Specialist PRO satisfies the physician's surgical demands with safety, reliability and convenience. When paired with the Bovie Smoke Shark II Smoke Evacuator this unit is a total system solution for procedures and facilities that require high performance with smoke evacuation.

Features:

Large illuminated display
Ample raised push button power-controls providing rapid power adjustments
Self test circuits
Audible tones
Monopolar & bipolar outputs
Discreet Outputs FCFS (First Come First Served)
Isolated circuitry
Digital error detection

Specification:

Output Power
Cut: 120 Watts
Blend: 90 Watts
Coagulation: 80 Watts
Fulguration: 40 Watts
Bipolar: 30 Watts

Dimensions
Height: 15.2cm

SMOKE EVACUATORS & ACCESSORIES

BOVIE SMOKE SHARK II SMOKE EVACUATOR

The Bovie Smoke Shark II is designed for ease of use and effective smoke and particle removal at the operative site. The Smoke Shark II is designed for use with all electrosurgical generators and effectively controls smoke plume from lasers and other forms of advanced energy.

The Bovie Smoke Shark II is designed for ease of use and effective smoke and particle removal at the operative site. The Bovie Smoke Shark II is designed for use with all electrosurgical generators and effectively controls smoke plume from lasers and other forms of advanced energy.

Features:

Easy to operate
Quiet and effective smoke evacuation
Long life 35 hour filter
Low cost per procedure
Excellent particle capture

Specification:

Recommended Accessories
786T - Vacuum hose 7/8" x 6"
786TS - Vacuum hose 7/8" x 6" hose to hose connect
SS95 - Smoke evacuation pencil adaptor 3/8" x 20" hose
SERS2 - Ez link smart remote activator switch

Dimensions
Height: 15.2cm
Width: 27.9cm
Depth: 39.4cm
Weight: 4.3KG

Line Voltage
220VAC

Line Frequency
50-60Hz

Warranty
2 year warranty

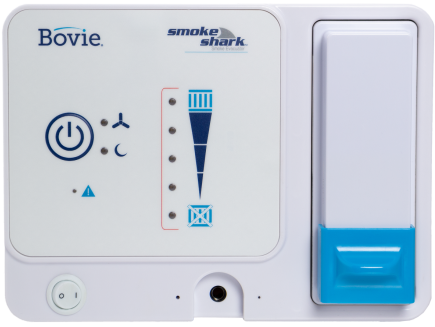

Kit Inclusions
SE02-220 smoke shark 2 x 1
FSSEP pneumatic footswitch x 1
SF35 long life 35 hour filter x 1
AC power cord x 1
User guide x 1

BOVIE SMOKE SHARK III SMOKE EVACUATOR

The Bovie Smoke Shark III is designed for ease of use and effective smoke and particle removal at the operative site. The Smoke Shark III is designed for use with all electrosurgical generators and effectively controls smoke plume.

Bovie smoke shark III reduces biological, physical, and chemical hazards present in electrosurgical smoke plume. Uniquely designed for the physician's office with compact size for wall mounting. Specifically intended for shorter procedures (15 minute or less) with a 4-Stage ULPA filtration 99.999% efficient in trapping 0.1-0.2 micron particulates and micro-organisms A quiet design offers excellent performance with less noise. Includes a shark skin adapter (SS95) for out of the box usability, a smart shark remove activation device (SERS2) for maximizing filter life & a 6 hour filter (SF06).

Features:

Compact for the physician office
Quiet and effective smoke evacuation
Multi procedure 6 hour filters
Excellent particle capture

Specification:

Dimensions
Width: 23.9cm
Depth: 15.5cm
Height: 18cm
Weight: 2.8kg

CAUTERY

POWER HANDLES & REPLACEMENT TIPS

BOVIE POWER HANDLE LOW-TEMP

Bovie manufactures more cauteries than anyone in the world. Therefore, Bovie has the ability to put the right cautery in the physician’s hand regardless of the procedure. High temperature cauteries are popular for many types of procedures including, pinpoint hemostasis, controlling diffuse bleeders, and many others.

Bovie power handle low-temp replaceable battery and replaceable tip cauteries are the next advancement in battery operated cauteries where reusability is a must. These products are designed for the office, ER, and clinical procedures. The Bovie power handle low-temp can be purchased individually in high or low temperature models with a variety of tips designed to fit your procedural needs.

Features:

Portable & easy to use
Safe design with recessed power button
Reusable handle with switch
Replaceable batteries
Replaceable tips
